How to use

- Move players by dragging. To move a player when it is not its turn, press "L".
- Click the dice in the top-left to roll it
- Hover over the bank while pressing O and P to change the balance
- Use "D" to copy entities and "X" to delete them

The Game

The goal in World Game is to get to one of the three goals first. This is done by three means:

- Ferries (marked by blue dots)
- Road
- Trains

Travell

Ferries

To travel by boat, roll the dice and move that number of blue dots. The cost of going on a ferry is 1 € per marker.

Road

Travelling by road is instant. The cost is determined by the traffic lights passed:

Green: 1 €

Yellow: 2 €

Red: 5 €

Trains

The cost of travelling by train is 1 € per marking.

Other rules

- When traveling, one can stop at any place along the path.

Challenges

In order to earn money, the players can do challenges which are made in towns. When wanting to do a challenge, roll the challenge dice and do that challenge. These can be custom written and gives a predetermined amount of money. If the player starting the challenge failed, the player furthest away (by distance, if the difference is undistinguishable the player with the least amount of money) gets a chance to complete the challenge and earn the money. If that player fails, no other players can attempt that challenge that round.

Mechanics

Blockages

Blockages can be used by players to prevent other players from entering the city. The cost of putting up a blockage is 30€. Blockages can only be placed in towns but are permanent.

Ice

Ice can be used by players to hinder the progress of other players. Ice can only be used when the players are standing in the same position by the player arriving. When a player has been frozen the player has to wait a round before continuing. Putting down ice costs 2€.

Bad Weather

Bad Weather adds a certain chance of the transport to fail in the area. The chance varies depending on the type of transport:

- Car: 1/3 (5, 6)
- Train: 1/2 (4, 5, 6)
- Boat: 2/3 (3, 4, 5, 6)

If the player rolls the dice to one of the values, the move is stopped. Bad Weather can be placed anywhere on the map for 20€.

Quick Reference Card

Cost

Boat: 20 € (per ferry)
Ice: 2€

Road: 5 €
Blockage: 15€

Train: 2 €

Travel

Road travel markers are in the form of traffic lights (red 4, yellow 2 and green 1).
